PRESS RELEASE

FOR IMMEDIATE RELEASE

Sutter Health Shared Services Purchase DISCO™ for Centralizing Release Of Information

August 2013

Data Distributing is excited to announce that another EPIC customer has chosen our **DISCO**™ solution to fully automate digital patient chart copies, while securing the confidentiality of the medical record release.

Nancy Fisher, President and CEO of Data Distributing says, "Sutter Health has long been a front runner in health services and technology, so when they looked deeply in to our **DISCO**™ solution for their medical records department, they saw the value in using our robotic network printer to centralize release of information within their shared services center. **DISCO**™ was integrated to work with their EPIC EMR system and automatically create copies on CD, thermally print the labels and encrypt the sensitive information".

About DISCO™
DISCO™ is an intelligent, digital (ROI) chart copy solution that produces patient record copies on disc for medical records departments whether they are EMR-based, paper-based, or a hybrid of both. **DISCO**™ performs HL7 queries and retrieves patient information from the HIS or EMR, creating on-demand digital copies of either full charts or specific encounters, and burns the patient data to a Rimage Disc Publishing system. Unique software also protects the security of the data. Additionally, **DISCO**™ indelibly prints the appropriate patient data directly on the CD for easy identification and quick shipment. For additional information about **DISCO**™, please visit www.discomedical.com.

About Data Distributing
Founded in 1984, Data Distributing develops innovative, digital and DICOM solutions, along with integration and professional services, to a growing number of facilities, OEMs and channel partners worldwide. This international company, headquartered in California, creates solutions that are used by hundreds of leading medical centers. For additional information on Data Distributing, please call (949) 598-1880 extension 1218, or visit Data Distributing's web site at www.datadistributing.com.
