PRESS RELEASE

FOR IMMEDIATE RELEASE

UCI Medical Center Chooses DISCO-Digital Secure Copy to Eliminate Paper-Based Release of Information

January 21st, 2011 – Santa Cruz, CA

Data Distributing announces the implementation of DISCO-Digital Secure Copy, an automated, digital, patient chart copy on CD solution at the University of California Irvine Medical Center.

“We are very pleased that the UCI Medical Center has implemented DISCO and can consider itself a pioneer in digital Release of Information”, says Nancy Fisher, President and CEO of Data Distributing. “The facility processed a large amount of paper ROIs, and not only wanted to dramatically reduce the cost of paper, toner, copiers and manual operations, but also protect the privacy and integrity of patient information as it left the facility. DISCO was customized to work with their Eclypsis EMR system and automatically create copies on CD, thermally print the labels and password protect the information. DISCO can help the UCI Medical Center satisfy new HITECH ACT requirements as well as energy saving and green technology recommendations”.

About DISCO

DISCO is an intelligent, digital (ROI) chart copy solution that produces patient record copies on disc for medical records departments whether they are EMR-based, paper-based, or a hybrid of both. DISCO performs HL7 queries and retrieves patient information from the HIS or EMR, creating on-demand digital copies of either full charts or specific encounters, and burns the patient data to a Rimage Disc Publishing system. Unique software also protects the security of the data. Additionally, DISCO indelibly prints the appropriate patient data directly on the CD for easy identification and quick shipment. For additional information about DISCO, please visit www.discomedical.com.

About Data Distributing

Founded in 1984, Data Distributing develops innovative, digital and DICOM solutions, along with integration and professional services, to a growing number of facilities, OEMs and channel partners worldwide. This international company, headquartered in California, creates solutions that are used by hundreds of leading medical centers. For additional information on Data Distributing, please call (949) 598-1880 extension 1218, or visit Data Distributing’s web site at www.datadistributing.com
